Patent Details:

Patent No	Kind	Lan	Pg	Main IPC	Filing Notes
JP 59107985	A		4		

Abstract (Basic): JP 59107985 A

Slurry of calcium silicate mixed with lime, pulp and water is mixed with another slurry of crystals of calcium silicate. The mixt. is formed by a dewatering press into a board. A metal sheet with claws is overlaid on one side of the board before hardening and pressed to the board until the claws are fully bit into the board to integrate the sheet with the board.

ADVANTAGE - Improves the strength of the board against loads, esp., concentrated loads. The board is usable in a wide floor.
